

## Frontend Software Developer

Frontend, Javascript, Vue.js (Vue Router, Vuex, ...), HTML, (S)CSS, Bulma

You like to actively shape software and have at least three years of hands on experience working with MVVM technologies such as Vue.js, React or Angular? REST does make you active not tired and you love Clean Code and when every detail is right? We are looking for you!

About two thirds of global carbon emissions are emitted in products' supply chains. At the same time most companies do not know their sub suppliers. We developed a cloud platform that helps companies to discover their supply chain, monitor carbon emissions, and take effective action to improve their entire supply chain. Become a part of our interdisciplinary team and help us thrive this mission.

An innovative team with interesting tasks awaits you. You will be able to shape our cloud platform and discuss on an equal footing with the rest of the development team. sustainabill is the first company worldwide uses a graph database to analyze environmental and social impact footprints. All of this comes with a great UX and simple to use for our customers and suppliers.

### Your tasks

- You work with technologies such as Vue.js, HTML, Bulma, Mapbox or D3
- You are responsible to architect new modules and components for the sustainabill cloud
- You discuss, plan and estimate new features of the software together with the design and development teams
- You have the possibility to push your refactoring, design und UX ideas in the project
- A workplace at Startplatz, the biggest Startup-Incubator in NRW
- Flexible working times, an interdisciplinary team and the knowledge to do something good for our planet every day

### Your profile

- You work well in a team, have a keen perception and structured way of working
- You have some development experience, you love clean code and you are not shy when it comes to identify, communicate and tackle code refactorings
- You have very good communication skills
- You are able to understand complex tasks and processes and at the same time can explain them in a simple way
- You have a keen eye for user interfaces while at the same time being pragmatic
- You know Vue.js, Vue Router and Vuex

### Interested?

We offer a highly flexible working time, a place in the accelerator "Startplatz", in Cologne next to the media park and a diverse and exceptionally open team.

Not only during the Corona times we offer working flexibly from home. In the best case your internship duration should be three months.

Just send a short cv to [jobs@sustainabill.de](mailto:jobs@sustainabill.de) which includes your motivation and a potential starting time for your internship. Please refer to this job description or use the form available at <https://sustainabill.de/career> to apply.
